

Advertising Wall & Web Link

Mavericks opened on September 4, 2009, renting a wide variety of recreational equipment. So far the response has been great! Mavericks is committed to doing local business in the purchase and trade in of equipment as many of you may already know. The local support does not stop there, as Mavericks will do all it can to promote those businesses that work with both locals and tourists in anyway to supply their needs.

Mavericks has interior wall space for advertising available to get the locals and the tourists attention as they come in to rent the equipment or just stop by to look around. Also, our customers may need suggestions of where to go for other activities in the area. Your business is important so we will do all we can to show them what our area has to offer.

Website links are included in the price which is a great tool for marketing. Mavericks are a member of the Pierre Area Chamber, Great Lakes of South Dakota Tourism Assoc., and Yellow Book with web presence in all sites for the coming year. We are working on more links all the time. Adding links to gain more web presence will be of great benefit to your exposure.
